When Frankfurt has something to celebrate the town meets at the Fountain of Justice. The figure of the goddess Justitia dates originally from 1611, when emperors were crowned in Frankfurt and wine flowed from the fountain.

Travel through time

After Eintracht Frankfurt won the German soccer cup in 2018, fans naturally celebrated at the Fountain of Justice. Artist Uwe Grodd replaced the fountain figure Justitia with "Justitio", a cheering male figure in a soccer jersey.

The Frankfurt Museum.

Welcome!

The Historical Museum Frankfurt (HMF) is the modern city museum of the Main metropolis and one of the largest in Europe.

Eight exhibitions spanning 6,000 m² present topics from the past, present and future of the city. Special exhibitions and the City Lab are dedicated to issues of current interest.

HMF locations also include the museum rooms in the Haus zur Goldenen Waage (House of the Golden Scales) – one of the most beautiful timber-framed Renaissance structures in the new Frankfurt historic district.

The HMF is a museum for the whole family and is largely barrier-free. It strives to be inclusive and participatory, and welcomes all visitors.

All exhibition rooms have modern ventilation and filter systems that exchange and clean room air.

The HMF participates in the initiative "Respect! No place for Racism" and is committed to the core values of the city of Frankfurt: respect and diversity.
